

RECEPTION (FABRYKA TRZCINY RESTAURANT)

The restaurant in the Fabryka Trzciny, an unbeatable climate and a place full of life. Post-industrial interior with a touch of older architecture. Our kitchen offers traditional meals with a hint of new trends. The tasty memories from childhood in a current, elegant form. We cook with passion, to make an 'art.-industrial' menu, along with basic classification. We invite you to three air-conditioned dining rooms, which we named because of their climate and appearance: "Tram-way"

Our biggest dining room in the restaurant. Leather couches, walls made of red bricks. A glass showcase with autographed bottles of whiskey, by our guests. A place for a fast lunch, or an evening company dinner.

"Trumpets"

A dining room, in which you will find older trumpets and instruments. Private lighting, small Windows. A place for a family meeting with friends and companions. "Office"

A dining room for business meetings and small company parties. Wooden furniture, walls with original piece of art. The table setting is set up as needed by the guests. MENU:
